handling of funds of the Ministry for State Security by the Ministry of the Interior which, formerly, were directly allotted, to the Ministry for State Security does not imply that it is subordinate to the Ministry of the Interior.

- 4. The main administration for political affairs, whose deputy chief is Inspekteur Boehme (fnu), was ordered to move from Berlin-Adlershof to house No 59/61 on Behren Strasse, Berlin-Mitte. This building is being reconditioned.
- 5. The headquarters of all the Volkspolizei cadre units is scheduled to move from Berlin-Adlershof to Schneller Strasse or Behrenstrasse. The chief of this headquarters, Ewald Eunschke, a veterau of the Sponish Civil war and a member of the SED Central Committee, will allegedly be promoted to the rank of Generalinspekteur in the near future.
- 6. Political considerations in consequence of the visit to Bonn of the delegates of the Volkskammer and the envisaged negotiations on free elections in all Cermany make it appear improbable that the existence of the Ministry for Mational Forces will be publicated in the near future. The Ministry of the Interior is the only office mentioned in internal and official transactions.

l,	and the origin and the professional background of the section chiefs mentioned	25X1A
	reveal the redominantly military character of the headquarters. Chefinspekteur wagner is believed to be identical with the former chief of the VPD in	
	Prandenburg-Hohenstuecken, Kurt Magner. Oberrat Teuber (fnu) previously was chief	25X1A
	of the 4th Section (transportation) of the main department headquarters of the MWA. Inspekteur Reimann previously was chief of the 5th Section (signal	
	communications) of the main department headquarters of the HVA. Chefinspektour	
	Linke (Inu) was previously reported by the same source as having the same assignment. Chefinspekteur Talter Bechler formerly was Minister of the Interior in Land Branden-	
	burg and, during the last years, chief of the central headquarters of the MVA. The data furnished are not believed to represent the definite organizational setup of	
	the Ministry of National Porces.	

2 "	forment. According to information furnished by the same source, only 150	
	persons were assigned to the ministry in early August 1952.	25X1A

3. Comment. The purpose of these movements is not yet clear. They may be connected with further organizational changes.
